EDUCATION

Diploma in Computer Engineering (2022)

Completed Diploma with **9.5 CGPA** from **Government Polytechnic Murtizapur**.

Bachelor's Degree in Artificial Intelligence and Data Science (2025)

Currently pursuing at **D.Y. Patil College of Engineering, Akurdi, Pune**.

Current CGPA: **7.5**

PROJECTS

Android Development Project - "Let's Chat"

- Developed an Android application using frontend XML and backend Java, integrated with Firebase database.
- Implemented features such as user authentication with OTP, profile picture setting, story setting, and group chat functionality.
- Utilized Firebase for real-time database functionality to enable seamless chatting experience for users.

Web Development Project - "Songify"

- Created a web application using ReactJS and ExpressJS, integrated with the Shazam API.
- Designed user authentication system to allow users to sign in and browse the extensive library of songs.
- Integrated Shazam API to access a vast database of over 1 billion songs, providing users with comprehensive song information.
- Employed modern web development techniques to optimize performance and user experience.

TECHNICAL SKILLS

Language: C/C++, Java, Python, Javascript.

Web Development: ReactJS, ExpressJS, NodeJS, Tailwind CSS.

Databases: MySQL, MongoDB, Firebase.

ACHIEVEMENTS

- Solved 600+ DSA questions on LeetCode in Java.
- Solved 250+ questions on Codeforces.
- Maintaining streaks of 50 days on leetcode.
- Completed 24hr Hackathon organized by pimpri chinchwad college of engineering,rav

CERTIFICATION

- Intermediate Problem Solving By HackerRank.
- Basic Problem Solving By HackerRank.
- Java By HackerRank.
- Python By HackerRank.
